

Online Safety – Safety Plan

Keeping young people safe online can feel like a daunting task as technology is moving at such a fast pace. A fantastic way to keep young people safe online is to work together, have a conversation and put an agreement in place. Remember we manage risk online and we cannot control everything online. It's also important children and young people have a say in the rules and consequences when building the safety plan.

Chat between _____ and _____

What devices do you enjoy using?

The things I enjoy doing online are?

Are there any worries or concerns you have about life online?

The worries adults have about my online life are?

What ideas have you got to keep yourself safe online?

What are the consequences going to be if your ideas are not stuck to?
